

HOW TO USE YOUR S35/FAS35 MIXING LIDS?

1

Insert the mixing blade (a) into the can.

2

Center the lid on the can.

3

Lock the locking cams (b).

4

Lower the blade into position. Do not force the blade once it reaches the bottom of the can.

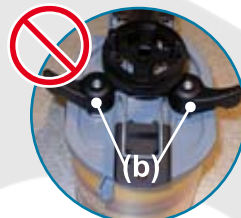

5

Recommended use.

Ensure that the lid is correctly centered on the can.

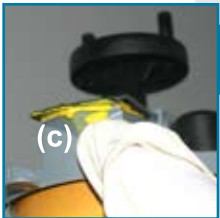

Incorrect locking of cams (b) could result in leaking and/or the lid detaching from the can.

Forbidden use: risk of leakage.

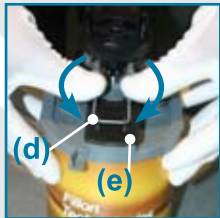

After each use,

Monthly cleaning of the slide and the spout:

1

Clean off any excess paint on the pouring spout (c) using a rag.

2

Dismount the slide spring (d) then the spout (e).

3

Remove the slide (e).

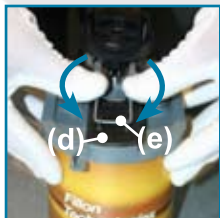

4

Clean the slide (e).

5

Clean the lid slide inside and out (f) using a cloth.

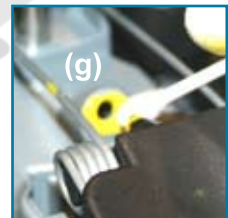

6

Reassemble the spring (d) with the slide (e) on the lid.

7

Clean the air vent monthly (g).

8

Use a foam-tipped swab to clean the air vent (g).
